### **Steps to Receive an AmTryke Adaptive Tricycle**

1. Determine a need by working with a therapist and receiving a referral.
2. Fill out all 4 (four) forms of the AmTryke (Tryke) Application Packet with the help and guidance of a therapist. The AmTryke Adaptive Tricycle Request and Waiver form needs to be completed by the adult recipient or child's legal guardian. The AmTryke Assessment Form and Tryke Selection Order form needs to be completed by the therapist.
3. Greater Birmingham AMBUCS requires a \$100 donation before we schedule any fittings. Note: AmTryke adaptive tricycles are distributed based on available AmTrykes, funds and need. Individual placements of AmTryke adaptive tricycles are at the discretion of the Greater Birmingham AMBUCS Chapter. The AmTrykes cost between \$600 - \$1200; if you can afford a larger donation, it helps us bless more recipients.
4. AMBUCS will review the completed application packets and then order the AmTryke based on availability. Sometimes an AmTryke model is on back order, and we will keep a waiting list.
5. After Birmingham AMBUCS receives the AmTryke and it is assembled the last step is to coordinate your family and a therapist to make sure the AmTryke is fitted properly.

Birmingham AMBUCS is dedicated to creating mobility and independence for children with disabilities. We are committed to doing all we can to continue serving as many families as possible.
